Algebra And Trigonometry: Real Mathematics, Real People

Synopsis

Ideal for courses that require the use of a graphing calculator, **ALGEBRA AND TRIGONOMETRY: REAL MATHEMATICS, REAL PEOPLE**, 6th Edition, features quality exercises, interesting applications, and innovative resources to help you succeed. Retaining the book's emphasis on student support, selected examples include notations directing students to previous sections where they can review concepts and skills needed to master the material at hand. The book also achieves accessibility through careful writing and design--including examples with detailed solutions that begin and end on the same page, which maximizes readability. Similarly, side-by-side solutions show algebraic, graphical, and numerical representations of the mathematics and support a variety of learning styles. Reflecting its new subtitle, this significant revision focuses more than ever on showing readers the relevance of mathematics in their lives and future careers.

Dr. Larson authors numerous textbooks including the bestselling Calculus series published by Cengage.

Bought this book for school. good condition.

I was a little apprehensive about this transaction due to the low price, but the book came and it was brand new as advertised and I couldn't be more happy. Saved a ton of money here vs the school website. New book here was priced better than new ones.

Item arrived as described and in excellent condition. It was also on time.

Book was in great condition

The book meet the needs of my class requirements.

This book is excellent for the subject matter.

This was my first experience purchasing text books through and it went very well. Things were shipped when i was told,they arrived when expected and saved money as opposed to buying them through the school. Only one book was delayed out of all of the course work that was purchased. Nucely done. I will definately go through in the future. Good job!

Book was EXTREMELY torn up as soon as I opened the box! The spine is about to fall off! Very lucky I don't have to haul it to and from school!!
