## Customer Reviews

Good ideas but mostly common sense. Might be really helpful to a teenager. It is a quick read and can be scanned quickly.

I think one of theses books is the same as the other

Good read, more than I expected

....all words no substance. These ideas have been written numerous times by different writers.

What you want is positive psychology that is something your life can bite into and make real change.

No hocus pocus of mind manifestations.. If your really interested in this psychology implementations, start with books by Martin Seligman.....Godspeed ahead.

Good reading will reread again when I have more time and piece of mind to focus and take it all in
