Voice Of The Angel: The Healing Oracles From The City Of God

Synopsis

For most people, life is a mystery. It's as if we live a life confined to a few pages within the middle of a novel, never knowing the beginning and never having knowledge of the ending. In not understanding the why of our creation, we respond and react to the repetitive trials and tribulations that confront us, armed only with the tools that were given to us by our parents. Parents who themselves have lived a life of the in-between. As the blind leading the blind, we continue forward on the road that perpetually merges within itself, always going in a circle. Religions have attempted to come to our aid, but their own need for power, money, and position have distorted the clarity of the message of what it is to be a spiritual human. Religion is a crutch that may be used as a stepping stone. It enables us to walk forward, yet leaves us with no possibility of ever running or flying within any freedom of living in the direction of our own choice to god. Our human mind has also attempted to come to our aid, but the mind has great attachments due to its driving force, the ego. The Big Bang needed to satisfy the human ego has created fantasy-filled past realities involving alien transplants and cloning: dissertations fashioning a whole human evolution by the genetic manipulations of extra-terrestrials. Or, on its more conservative level, the mind, by tapping into the surface of the truth, has adopted a prepackaged series of intellectual mantras, seemingly the manuals that give us the recipe to escape the wheel of our continuing incarnations. Yet in truth, our human mind can only create for us the illusion of escape by stealthily placing on us another mask, although appearing more beautiful and angelic, still a more subtle mask of our own ego.

Customer Reviews

Like the Bible or The Course in Miracles some of it can appear to be cryptic in nature and difficult to

understand.... This book can grow with you as you spiritually evolve, and can be read over and over as we walk towards our spiritual enlightenment A must for the Buddha in all of us.

didn't get it

This book is a spiritual awakening. To fully understand you need to open your mind and see beyond the everyday spiritual guidance we are used to. The words are beautifully created and eloquently put together. Reading this book taught me more than I had learned in years of traditional teachings. I recommend this book for anyone seeking spirit and love outside of traditional confinements.
