Color Me Swoon: The Beefcake Activity Book For Good Color-Inners As Well As Beginners

Synopsis

Following the news, engaging in political debate, or going to the opera is all well and good, but from time to time you just need to sit back and look at some old-fashioned beefcake. Team that with some crayons, pens, and markers, and what do you have? HEAVEN!! IN AN ACTIVITY BOOK! Color Me Swoon will leave you weak in the knees as you and your pens caress chiseled features and chest hair. Along with coloring, you'll rate more than sixty gorgeous guys on swoon-worthy-ness, as well as learning what in their lives (beyond their killer looks, duh) makes them so hot. From Brad Pitt, George Clooney, and Will Smith to Daniel Craig, Jake Gyllenhaal, and even One Direction, all the heartthrobs are here, and in no particular order. (Except for Ryan Gosling, who is first. Obviously.) So what are you waiting for? Get out your crayons and color those hotties good.

Customer Reviews

Currently living on the South Coast of the United Kingdom, Mel Elliott graduated from the Royal College of Art in 2007, and began creating 'fun books' for grown-ups after a short stint in advertising. Combining her love of pop culture and illustrative talents, she produces material that is close to her heart and creates the kind of stuff that she wants to buy.

Got this for my girlfriend for Christmas. Pros: Coloring book is really well done and quite amusing. Lots of activities and she seems to enjoy it because it's relaxing for her to color in hunks after a long day. Cons: Coloring book made it even more abundantly clear that if my girlfriend ever meets Ryan

Gosling, I'm toast.

Got this for my 15 year-old daughter. Be aware that there is some mature content. I wondered about this, but I did not see any reviews indicating the targeted age, and the option to look inside was not available. Here is an example of what I mean by mature content: on the description of Aaron Paul the author states, "I'm not normally that thrilled about meth addicts, but Aaron Paul's character in Breaking Bad has the ability to make them completely adorable,...." This statement ends with an asterisk; in the footnote the author goes on to say, "I'm not saying that drug abuse is the way to forge loving relationships so don't even try it. Drugs are bad, kids." This statement makes it seem that the author's target audience is young girls. However, later under Javier Bardem, the author states, "If you'd like to sip sangria with Mr. Bardem...." This is very contradictory being that most teenage girls shouldn't be dreaming of drinking alcohol. Anyways, be aware of these things if you are considering this for a teenage girl. Hindsight, I probably would have skipped on this for my daughter at least for a couple of years. The five stars come from her, she says she loves it.

Color me satisfied! This coloring book is everything I wanted and then some. This book boasts 125 pages full of handsome men, all awaiting to be colored in and gazed at for hours. The little tidbits and various activities in the book are great as well. I originally bought this as a gift for my roommate, but I think I'm going to keep it for myself!

The pictures were good, but the paper is so thin you can see the words bleeding through from the other side of the page, and its slick, thin paper makes coloring difficult. Also, it doesn't open wide enough to comfortably color the pictures. I bought this as a good gag gift and for the poor design itself I wish I hadn't. If they changed these issues it would be worth the money.

A fun coloring book! My sister and I had a few good laughs on Christmas. Most of the drawings are great. The only one I really had a hard time with was Brad Pitt. It didn't really look like a young Brad to me or my sister. There was a poem about Keanu that struck a nerve. I couldn't tell if it was supposed to be serious or funny. He just happens to be one of my all time favorite crushes. River Phoenix will also hold a special place in my heart right along with him! Overall, buy this great piece of entertainment and ignore my sensitivity. I mostly wrote it in case the author ever reads her reviews.

Bought this for my friend who is an adult who likes to color. Was very disappointed. I heard a popular radio show talking about this and I checked it out and thought it was a sure win for a present. Really disappointed as to how cheesy it looked. Was embarrassed to give as gift. Should have returned but was too late to find another present.

Ordered this for a friend who loves it. She can't stop talking about it. Her exact words, "Let me tell you, this book is hilarious. The descriptions and "activities" in there are right off of a middle school bathroom wall!" My friend colors a lot with her kids, so I thought she might enjoy coloring something a little more adult. So glad I got this for her.

Bought as a gift for a girlfriend's birthday and contemplated keeping it for myself. It's actually a lot sturdier than I expected; well put-together and has a good layout. Opening to any page will give you an uncolored outline of any given hunk along with a related activity on the opposite side. Perfect gag- but not-so-gag-gift.
