## Customer Reviews

Ann Moura has been a practitioner of Green Witchcraft for over forty years. She holds both a B.A. and an M.A. in History. Moura lives in Florida where she runs her own metaphysical store, presents public rituals, and teaches classes on the Craft. Quite a good reference, Aoumiel does such a great job with the Mansions. This book is not for the novice as you will need to be fairly advanced in the craft to follow but it is well worth the time if you are. Blessed Be....

Going first where others only talk about doing. Ann Moura keeps delivering the punches and considerable knowledge with this later book in her encyclopedic range of data. No seeker of the esoteric, occult or just plain good old green witchery should be without this book along with her others in their library collection. One can never be well read enough. I am truly grateful for this elder's compendium of knowledge and in her willingness to share with others as some of us walk a solitary path out of necessity.

Ms Moura is fantastic for people that are just getting into Green Witchcraft. If she wasn't so far from where I live I would attend her workshops

This book is actually a manual which gives complete, ready-to-go rituals that even a beginner can do, but complicated enough for the more experienced mage. With only a rudimentary knowledge of magic and an almanac, one can utilize appropriate lunar energy for the desired result. I have dozens of books on the craft, but this ranks in the top 3 along with her concise Grimoire for the Green Witch. Thank you, Ann. Update 3 months later. Ok the spell worked, but marginally, and it was a big one. I was instructed to do a spell out of a book, for once! ( I write my own). Her work does not rhyme. This may not be a problem if you work mostly with the elementals, but it is a problem if you work with the deities. My recommendation is to take her rituals and make them rhyme. Still love the book. I am trained in high ceremonial magic and it was easy to adapt it and ratchet the correspondences way up with the astrology already done.

Knowing what moon sign is out there is important to your workings and this book is a big help in that area

This is a good book to have for any kind of magickal need. Full of info, most of the info I don't even understand just yet. That is why I love this book, it keeps the learning of the arts going.

I started reading this book only to find out in the introduction that this book is more for advanced practitioners of the craft. I am building my library of Wicca/Witchcraft materials and probably could have waited until later to purchase the book. However, the book has a wealth of information that when I am ready to delve into Lunar Magic, this will be an excellent teaching tool.

Like the way this author explains the whole process of witchcraft. I would recommend this book to anyone who is wanting to get a deeper understanding of the craft.
