I love the Loch Moigh Time Travel series by Barbara Longley. Book 4 is the story of Sky Elizabeth Mackintosh eldest daughter of the Earl of Fife, which we meet in bk 1. After over hearing a plot to murder her by her betroth Sir Oliver of Clan Erskine and his lover Lady Alice Lunsden. Sky flees

from castle Kildrummy to find her father and brother to them that she won't marry Sir Oliver and about the plot to marry her just for her handsome diary. Then murder her. Sky flees right into the time travel portal and finds herself in 2014 at the New York Renaissance Fair's jousting field. She is laying at the feet of a Straun the illegitimate son of the 4th Earl of Sutherland. At the age of 14 Straun had been catapulted into the future from the year 1333. So he knows immediately what Skys sudden appearance means. Straun has been raised by the Gordon family and looks on them as his parents and there children as his brothers and sisters. They make excellent secondary characters to this fast moving emotional story. The question is how does Sky get back to her time in order to stop a war? Her disappearance will be considered as a broken betrothal causing a clan war between the Mackintosh's and the Erskines. Ms. Longley doesn't mince words by adding fillers to her story. She writes well thought out fast paced funny and romantic time travel stories. The Highlander Vow's is a great addition to this series. I fell in love with al the characters. Very good lighthearted romance between Straun and Sky!!

"Fabulous book with amazing narration" I love Barbara Longley's entire series and was so excited to be able to get this fourth one. Just as with the other books in this series, the characters are so well developed, they become as friends. To be honest, I didn't want to put it down until I was finished. It is always so nice to me, to be able to continue to read about the continuation of the families. Luke Daniels narration was absolutely wonderful as well. His skill with the accents and different character voices made the listening experience so real. It was like watching a movie in my head while I was able to complete other tasks at the same time. I would easily recommend the book itself, as well as the audio.... Both are fabulous and well worth the investment of your time and costs.

I really liked this book. Couldn't put it down. These tales are really action packed, and the faerie element with time portals scattered about, taking the people from here to there, and from there to here gives the stories an extra oomph! I am not a reader of romance novels, as in I avoid them at all costs. I do like this series a lot, though. I like the settings in time, the geographic area covered (Scotland), the travels between Scotland and the U.S. The romantic activity is just minor compared with the rest of these stories. I think Barbara Longley shows a lot of originality.

I have read all four of this series, and other series by this author. I love her writing style, and this book really had me wondering exactly what the ending would bring. I always hope for more in a series that I get so sucked into, although the books are stand alone as well as part of the series.

The characters are easy to relate to, and it is rather easy to get sucked into their lives. I could barely put this book down. Every chapter held happiness or tears (in good and sad ways, but all equal exciting and amazing reading that keeps you from wanting to take a break). This is definitely a great buy, and a book I would immediately recommend to a friend. I've never been disappointed with any of Ms. Longley's books, and this one is no exception.

I am a fan of this series; really enjoy how the characters that land in altered times adapt. The things we take for granted in the here and now! I give it 4 of 5 because I got weary of the immaturity and frequent sexual references. At least they used protection. Now that there is a portal map, I expect there will be more interaction with the fae, previous travelers, and other unsuspecting characters. Looking forward to future books by Ms. Longley.

This was such a great book. I had not read the first books, so didn't know if I'd be lost, but it was very easy to pick up. I loved the whole aspect of it. I enjoy medieval romances, especially when laced with time travel. The characters were great, the story was great, and there is nothing negative I can say, except that I wish I hadn't read it so fast. Struan is my kind of Scottish medieval hunk. I definitely recommend this book, and will be searching for more books by this author.

Another great book in this series! This time a Scottish lady named Sky accidentally comes to the future, and in an interesting twist, she falls from the portal directly into the path of Struan, who also came from the past, albeit from a time even earlier than hers. I love the conflict between these two. She's desperate to travel back to her own time to stop a war between clans, while he never wants to go back. He barely escaped death the last time he came through a portal, and he fears fate may aright itself if he travels through time again. He tries to convince her to stay in the future, but Sky is determined. As Struan comes to care for Sky more and more, he wants a relationship with her, but the odds are against him. If she returns to the past without him, he'll lose her and she'll likely be in danger. And if he travels back in time with her, he can protect her, but as a bastard son of a Laird, he won't be fit to wed a lady like Sky. This story was lots of fun and contained oodles of adventure. Loved it!

This was a riveting, impossible book to put down. Now that it is finished, I am sad. Excellent writing and character development. Very like able characters and you feel like you are right there in the story- not watching from the outside. I give very few five star reviews- a book has to be very

engrossing and with original twists and very layered for five stars. I am anxious to start reading the next book in this series.
