Mark Cotta Vaz is the author of over twenty-one books, including four New York Times bestsellers. His recent works include Twilight Saga Eclipse: The Official Illustrated Movie Companion, Mythic Vision: The Making of Eragon, The Spirit: The Movie Visual Companion, and the biography Living Dangerously: The Adventures of Merian C. Cooper, Creator of King Kong, which was a Los Angeles Times bestseller.

I always love getting the movie companions to films that I love. All the behind-the-scenes details and photos are great. Only real bummer for me is that they didn't make one of these for Breaking Dawn

Part 2. Instead there was some saga guide with lots of little inserts and stuff (or so I hear--I didn't get it) that probably appeals more to the young fans. Really disappointing that they didn't give the final film its due treatment, but nothing anyone can do about that now. Still, this is enjoyable just the same, and you can get a good feel for what the general production of BD was like.

I love the twilight saga it is funny! I thank that the actress Elizabeth is a very good actress. Twilight is a good movie.

Not only with the Twilight series, but with any movie I really enjoy I always like to find out where scenes are shot and how, costuming, actors' comments, etc. You just have no clue how much work and planning goes into a two and a half/three hour flick. But, of course, this was special because so much went on in Breaking Dawn in regard to the relationships between Edward, Bella and Jacob. And it's not over yet.....

This companion is definitely worth getting! You would not believe all the effects added to this movie! It's INSANE! Great way to get a behind the scenes look at how they mastered each scene, situation, and timing of everything. It was a GREAT read for myself, and I would definitely recommend this to anyone who shares the love of the Saga!

Why isn't there a guide to Breaking Dawn Part Two???? Or they could've combined them, since they shot the films at the same time. This is the only thing that bothers me about this book, is that it seems to be the last one! And there is such a richness to the last film. It deserves a guide. I really want to know what happened.

FINALLY! The LONG-awaited wedding of Bella & Edward!! Their honeymoon on Isle Esme! The birth of their daughter, Renesmee! Bella's transformation! It's ALL there, along with some GREAT DVD extras!! I gotta admit -- I was disappointed that director, Bill Condon, did the commentary on the movie, instead of Rob Pattinson, Taylor Lautner and Kristen Stewart. I was also disappointed that there were no extended or deleted scenes included on this DVD, as with some of the others from the "Twilight Saga". I hope when the Breaking Dawn - Part 2 DVD comes out, it includes more commentary from some of the stars, as well as more deleted scenes.

I'm a 50 year old man who recently got hooked on Twilight. I'm actually a little embarrassed by it,

but I just can't help myself. I've read every book and seen every movie several times. I wanted to know more about the new Breaking Dawn movie, so I picked up this book. It was great. Plenty of big color pictures of the cast and crew. Lots of good behind the scenes stories. If you are interested at all in Twilight, and especially in this movie, you owe it to yourself to get this book.

The new Breaking Dawn Movie Companion book is an excellent movie companion book. Filled with good quality pictures of the cast and crew, behind-the scenes information, quotes from the stars of the movie. They did a good job in compiling this book. I really enjoyed the movie "Breaking Dawn 1", considering it the best one of the "Twilight" series. It is so nice to have this high-quality book as a pictorial keepsake of the movie. I would recommend this book to all Twilight fans.
