"Should be immediately available to anyone with an interest in vascular surgery since it provides a major source of information relevant to all vascular surgeons whether they are in training or have an established vascular practice." - Annals of the Royal College of Surgeons, June 2011 "Rutherford's may be commended to vascular surgeons (trained and training), interventionalists and all clinicians participating in cardiovascular research." - British Journal of Surgery, Dec 31, 2011

Robert B. Rutherford, MD, FACS, FRCS(Glasg.), Emeritus Professor of Surgery, University of Colorado School of Medicine, Denver, CO --This text refers to an out of print or unavailable edition of this title.

This book is absolutely great, a must have for anyone preparing for a board exam in vascular surgery. However I bought it expecting - or lead to expect by the title "... expert consult: print and online", that I will have access to online updates, extended bibliographies and other content. It is not provided!

Exactly what I was looking for.

The only vascular surgery text needed. It gets heavier and thicker with each edition. The MAIN thing that keeps me buying new editions is that the complete searchable textbook, complete with charts and tables, is available over the internet. I NEVER need to carry the book with me, and the searching ability is excellent.

EXcellent- must have resource for anyone working in vascular surgery. Love having the online access to this text too (only available if buying this book new- one time code code activation in front cover of book).

I recieved the books on time and it's excellent, i'm a vascular surgeon living in Argentina and we don't have access to the 7th edition here

The most essential text for all vascular surgeons.

Arrived on time. Great price

The professionals(authors & editors) to professionals(readers).That's it.Those who had previous editions in hand know what I'm talking about.As someone (You all know who)said:" I' ll be back"
