Customer Reviews

I really like the Insight guides for their historical information. I don't care for guidebooks with pages and pages of information on hotels and restaurants. I get that information from the internet. I just want a great reference book that will describe the sights and have pictures. This book fit the bill.

We have purchased these books before and have found them very good. This one gives us everythig we wanted.Love the maps, tips and pictures. A great guide book.
