Vocabulary Workshop Level E

This book has a variety of activities to help kids remember the words in many different contexts. My son was able to get into the groove and complete the different exercises for each lesson. He didn't ever complain about using the workbook.

These Sadler-Oxford Vocabulary Workshop books are very well done. I highly recommend them for young people preparing for college who want to be able to read at a high level and perform well on entrance examinations.

I remember when I used to use a similar book in HS. (sigh) I really enjoyed those classes. This textbook was actually for my little sister. I'm sure she enjoyed her class and aced it! I did see her put it to good use.

Arrived on time. A GREAT resource for learning vocabulary!

My son used it to prep for the SSAT and his scores improved with using it. I would highly recommend it to Public school kids where the emphasis is not so much on vocabulary. It's priced

very good too for the material it brings along.

Too much writing in it. Had to be sent back. Ordered a different one from another place.

As good as a textbook can be.

A little wear and tear but nonetheless did the job!
