Customer Reviews

Rebels, patriots or mutineers it all depends on your perspective. A secret cabal organization behind the most corrupt members of the government. What is their agenda and how powerful are they? But series is getting better.. Although you could read this as stand alone you will understand more if you read series in order. The author still stereotypes his villeins as stupid, corrupt and no redeeming

values. The existing ambassador from Athena's home planet of Hong Kong refusal to acknowledge Athena's position as the new Ambassador is one example of such idiocracy. Athena is placed in dungeons beneath the embassy and tortured again. Her girlfriend and her grandmother won't stand for this and intervene forcefully. Luckily wholesale bloodshed is avoided and more secret members of the evil cabal are revealed. But even as an ambassador people are out to kill her and the same secret enemy plots against Mars and her other home planet. Just when Atena has finally positioned herself as Ambassador, Earth finally comes out from behind its satellites and their intentions do not seem friendly.

Very good book. Would have rated it a "5" but too many instances of millenial spelling and grammar. (Last thing every author should do is spell-check with a fresh copy that DOES NOT have a dictionary attached.) I'll keep buying his books but how much can it cost to pay an high school grad from a catholic school (they usually know grammar and spelling) to spell check.s

It drives me nuts to read a book in a little over an hour. What can I say every book seems to get better your latest Infiltration was a sweet but shot ride. Damned interesting plot earth now controlled by clones. Humans considered waste of space. The action was fantastic, the characters interesting as a all get out. Love Wilson what a character. It was a great read some mistakes but no one's perfect. Just wish it was longer.

The stories are like crack...\$2.99 a pop...cheap enough that I willingly pay it and really really fun to read...but I need a fix again

Very good . Reading the rest of the series.

What a great addition to the series. I found the story to be a fast pace and fluid. I enjoyed seeing how Athena's roll and purpose continue to change and looking forward to Wilson's future battle's and what other creations he can developed.

Well Lee is now the Ambassador to Mars from Hong Kong!! It took a while and she had to be rescued but she is now the Ambassador!! Love her character and all the others associated with her. Wilson you are too funny and you have a cat, I love you more now!!

I enjoyed this immensely and have read 8 books over a number of evenings. Clean dialog and not lost in sci fi technical details about the ships and weapons. Moves along and is fun to read like sci fi action movies are fun to watch.
