Through fearless self-reflection and a patient unpacking of his family history, Mikkel Aaland discovers that it's never too late to learn from your past, heal and grow. Epigenetics, one of the most fascinating areas of recent scientific learning, posits that the experiences of our ancestors can impact our own mental, physical and spiritual health through a mechanism commonly known as "ghost genes." Aaland intuits, then learns of, this fascinating concept while striving to make sense of the loss of his eccentric, adventurous father in a heartbreakin family tragedy. If this book's humanity and compassion alone were not enough to reward the reader, Aaland, a renowned photographer, graces his tale with exquisite images from regular visits to his ancestral home in Norway and family archives, forging a much broader work of art.

Mikkel's odyssey is a treasure. This well written and beautifully told tale of tragic loss, humanity and resilience is a gift to the world and to all who dare to love greatly and accept what the universe offers.

Mikkel Aaland has taken a terrible tragedy and made it into a rich and compelling meditation on family, history and spirituality. As in his earlier excellent book *ÅfÅcÅ* â ¬Å Å“Sword of HeavenÅfÅcÅ â ¬Å Å•, Aaland is an engaging storyteller who nonetheless keeps his eyes clearly focused on the larger issues of life, love and destiny. An added bonus is that this time Aaland has used his considerable skills as a photographer to add a strong and haunting visual element to the telling.

Mikkel's story, in its simple language and beautiful photos, captured the emotional essence of his life. His honest telling and revelations from his ancestors and relatives in Norway to his family and friends in San Francisco cast reflections on all of our lives. *The River in My Backyard* is a book to be lauded and shared.

His brother murdered his father, led by the "hand of God." I cannot imagine being brave enough to work through this and strong enough to write about it. That is what Mikkel Aaland does in this heartfelt story. He shares sorrow, joy, and a passion for life that will inspire any reader.

One of the best books I've read in a long time! So well written and loved his photos. I happen to live in Livermore and remembered his brother riding his bike in town. I'm happy for the author that he was able to be friends with his brother. Plus I think it took great courage for him to write about his family.

Mikkel opens his heart and allows us to join him on this trip on the river. At the same time you can not stop thinking about your own river and the journey you yourself are taking. Thank you Mikkel for taking this journey and sharing it with us.

I would recommend this book wholeheartedly, especially if trying to understand the terrible disease of schizophrenia that can afflict so many families.
