After completing a 6 week study on the Civil War with a group of 7 - 11 year olds in our Home School group, I gave each of them a copy of this book. They have all loved it and have enjoyed

going through the book in a variety of ways to change their outcome. It has been a lot of fun!

Since this is an interactive book, it really doesn't fit the non-fiction category very well. I did not choose it for my 8th grade summer reading program.

I would definitely recommend this book for anyone who has a child that loves to read and also loves history or just wants to have a fun way to gain some knowledge about history. My 9 year old loves it.

Item arrived quickly and in perfect condition. Gives the reader a choice of how to proceed through the story as well as a look into how life was during the Civil War.

This is a great "choose your own adventure" genre book. It is suitable for elementary and middle schoolers and allows one to read without consciously knowing they are learning history as they jump into each adventure. It looks at the US Civil War from multiple viewpoints to show a well-rounded view helping promote critical thinking about this momentous era in United States history.

I have high school kids with special needs. I couldn't find a book until my co-worker pointed this out, it has been a saving grace. I read it several times to choose my story but no matter what the North wins I am not sure why, haha.

I bought this for my little sister and she absolutely adores it. She talked on and on about the different paths that you are able to take and she even learned some history by reading this and then asking me questions.

These interactive stories are wonderful. Helps your child to understand the effects of decision making. My kids love these books.
