Perfume Dreams: Reflections On The Vietnamese Diaspora

Synopsis

"When Americans say Vietnam, they don't mean Vietnam." In his long-overdue first collection of essays, noted journalist and NPR commentator Andrew Lam explores his lifelong struggle for identity as a Viet Kieu, or a Vietnamese national living abroad. At age eleven, Lam, the son of a South Vietnamese general, came to California on the eve of the fall of Saigon to communist forces. He traded his Vietnamese name for a more American one and immersed himself in the allure of the American dream: something not clearly defined for him or his family. Reflecting on the meanings of the Vietnam War to the Vietnamese people themselves--particularly to those in exile--Lam picks with searing honesty at the roots of his doubleness and his parents' longing for a homeland that no longer exists. "Lam shatters the assumptions of readers who have encountered the Vietnam experience only through American pop culture....He writes with the delicacy and intensity of a poet."--Los Angeles Times Book Review "Andrew Lam writes with the honesty of a true journalist and the feeling of a born storyteller. On his many journeys between Vietnam and the U.S., he sees first-hand the global consequences of war. *Perfume Dreams* is a meaningful book for our times."--Maxine Hong Kingston, author of *The Fifth Book of Peace* and *Woman Warrior* "Much will be made--and rightly so--of the eloquent commentary Andrew Lam's essays provide on Vietnam and the Vietnamese. But his collected essays have a far deeper reach. Lam brilliantly illuminates the universal issues of self

and home and human striving. Andrew Lam speaks to each of us quite individually and personally, with wit and compassion, about the things that connect us all at the deepest level. *Perfume Dreams* is a fascinating and important book by a truly gifted writer.”--Robert Olen Butler, author of the Pulitzer Prize-winning *A Good Scent from a Strange Mountain* ”Lam paints unforgettable portraits of the horror of refugee camps, a father who was once a three-star general, and a rebellious son who finally finds his own home, not in Vietnam or United States, but in the country of story.”--Maria Hummel, author of *Wilderness Run* ”As a first-generation Vietnamese American, Lam is able to write about the full spectrum of the Vietnamese immigrant experience, ranging from memories of idyllic childhood in Saigon to his family’s painful post-war exile in America. Lam’s insights into Asian American life are reflected in candid, witty anecdotes that reveal much about the difficulties of living in two cultures.” --Audrey MagazineIn this powerful collection of essays, Lam, a syndicated columnist and National Public Radio commentator, explores his identity as a Viet Kieu (a Vietnamese national living abroad) residing in the United States. On April 28, 1975, 11-year-old Lam and his family fled Saigon aboard a crowded C130 cargo plane just two days before the fall of Saigon to Communist forces (a day Lam would come to know as an "American rebirth"). His father, a respected South Vietnamese general, followed soon after, reuniting with the family in California, where they would begin at the bottom rung as they struggled to fulfill the American Dream. Looking deep within himself and his fellow Viet Kieu, Lam seeks to "marry two otherwise dissimilar and often conflicting narratives." He cites cultural critic Edward Said as he shows that to transcend one’s national limits one must not reject attachments to the past but work through them. Lam, who grows to realize that home is "portable if one is in commune with one’s soul," embraces the journey of self-discovery and concludes that one’s identity is not fixed but "open-ended." What results is a cohesive presentation with broad appeal, allowing non-Viet Kieu to understand Lam’s experiences.

Andrew Lam is an editor and cofounder of New America Media, an association of over two thousand ethnic media outlets in America. His essays have appeared in dozens of newspapers and magazines across the country, and his short stories are anthologized widely. Followed by a film crew back to his homeland, Vietnam, he was featured in the documentary *My Journey Home*, which aired nationwide on PBS in 2004. His book *Perfume Dreams: Reflections on the Vietnamese Diaspora* won a PEN American Beyond Margins award in 2006. Lam currently lives in San Francisco.

This attracted me because we recently visited Vietnam and appreciated the people so much. The book gives you a feel for how lives changed as the result of the war. The various family members and acquaintances that Andrew Lam describes have very different experiences and perspectives on emigrating to the US. He also covers the perspectives of people in Vietnam now. Reading this is a very rich way to "live" a unique immigration experience that we helped create.

Beautiful, poetic, reflective--I read it in a single evening, stayed up too late, but it was worth it.

Lam's writing is deeply moving. Going beneath an often impenetrable silence Lam reincarnates with passion, not only for himself and his family, but for many others as well, what it 'feels' like to be an immigrant in America from Vietnam. The stories are touching and genuine; the burning of the family memoirs and photos... painful. Trying to assimilate in American culture by telling wartime stories to assume popularity with classmates...tear-jerking, along with his first act of betrayal asking his brother, "Are you sure that's what you want me to say?" ...I had to laugh here however... reminded me so much of something I would have done/asked. And then the others; the Nguyen brothers, the long tearful flux of stories pouring from the detention center in Hong Kong, and his grandmother in the convalescent home... loved her however. Tremendous & heartfelt writing. And indebted to the passage, ' "Home is portable if one is in commune with one's soul. ...For mine is a landscape where Saigon, New York, and Paris intersect, where the Perfume River of Hue flows under the Golden Gate Bridge." Astonishing. Outstanding!

Andrew Lam is a gifted writer and I love to read any of his books.

Interesting perspective of life for a Vietnamese political refugee.

This is an insightful series of verbal cultural photos of the many varied experiences of Vietnamese refugees coming to the US in several waves after the war. Cultural abrasion, Confucianism and free market excesses, What happened to the children of the Vietnamese elite we supported and those less financially and educationally less abled. A sociological trip through the American-Vietnamese diaspora.

The book looks great~I haven't gotten around to reading it yet, but it's nice and soft O----O the cover is soft.

Read this book for my book group. It was fascinating, lyrical, and beautifully written. I knew little about Vietnamese history and found this enlightening and educational. But thoroughly enjoyable to read.
