# Uncle John's How To Fight A Bear And Win: And 72 Other Real Survival Tips We Hope You'll Never Need (Uncle John's Bathroom Reader)

## Synopsis

For more than 25 years, Uncle Johnâ™s Bathroom Reader has helped readers learn amazing things. Now, Uncle John shows you how to do things you didnâ™t know how to do . . . and probably should never, never, never actually do, unless youâ™re in a survival situation and really, really, really need to. Uncle Johnâ™s How to Fight a Bear and Win is a new approach to survival guides and how-to books. This book provides step-by-step instructions for how to make-do in any rugged terrain. But if youâ™re expecting "how to start a fire," think again. This isnâ™t the kind of book that tells you how to make a fire by rubbing two sticks together &#151; it tells you how to make a fire using a car battery. It also tells you: &#149; How to swing from a vine like Tarzan &#149; How to land an airplane in an emergency &#149; How to fight a bear . . . and win &#149; How to perform emergency surgery in the woods &#149; How to identify what insects you can &#151; and cannot &#151; eat And lots, lots more.

The Bathroom Readers' Institute is a tight-knit group of loyal and skilled writers, researchers, and editors who have been working as a team for years. The BRI understands the habits of a very special market &#151; Throne Sitters &#151; and devotes itself to providing amazing facts and conversation pieces. The Institute is based in Ashland, OR, and San Diego.

About this is a stocking stuff for for my little brother and he actually read it cover to cover. This is no

easy feat for teenager and as long as he's reading I'm happy. Plus he now walks around quoting funny lines and facts from this book which is a major step up from every day teenage lingo. Great buy would highly recommend

Gave this to my father, who has dementia. He really enjoyed the stories and complained the book was too short. A superlative choice for an intellect who needs a light read.

I normally LOVE the Bathroom Readers' Institute's line of books, but this one seemed to be a little.... to dull. It certainly delivers on all the info it tells you it has between the covers, but, it's just lacking anything that keeps it fun or exciting. It's good info to have if you are ever caught in a wild situation, but the book was a little too serious for what I was expecting.

As informative as it is humorous. Great bathroom reader.

Very useful book, someday I may have to shoot a bear with a home made gun while protecting my house made of feces. 100 recommended to bring with you at all times or at least absorb the knowledge.

Overall very humorous tips and tricks for survival. This was the first uncle johns book I have read and while it was my expectations that were off I was hoping for something with more practical survival applications. Overall I would recommend if your looking for humor, but not if your looking for a hardcore survival guide.

this book is a gift, so i just perused it, but what i read was very funny. very tongue-in-cheek, and amusing. i like that each part is short, it's easy to consume a few stories in a sitting, and then go about the rest of your day. i like the mix of humor and facts. i think the gift recipient will love it.

Perfect gift for anyone that has a flannel shirt and irrational survival fantasies - aka, most men.
