Customer Reviews

That's a real conversational book . So if a teacher really wants to improve ones conversational skills , easy american idioms will make a huge difference !!!

It's a nice audio. Really smooth and easy to listen, learn and study. I like the situations and the way they explained using new vocabulary.

I learned a lot of American idioms from the CDs while playing them in my car. It worth every penny that I spent. Highly recommended if a foreigner want to speak like an American. I only found Intermediate ESL level on the market. Anyone know that Living Language has published the higher level version?

This study material contains a lot of idioms, which is nice for advanced learners. There is a lot of information, so be prepared to work hard. Dialogs are very good - short and realistic (can be useful

for real life in the US).I recommend this material to advanced learners or those who already live in the US. However, for mid-level learners this material will be overwhelming.

This book is OK, but if you want a really good and interesting book on American idioms, get "Speak English Like an American."

This is a very good English book/audio Cd set that I purchased from.com, Thank's and Living Language Company, keep going,please produce more great English learning material for ESL students.

very good in learning idoms...the pocket size make me easy to review when commute to work..
