World War I: The Definitive Visual History

Synopsis

2014 marks the centennial of the start of World War I. DK will mark the occasion with the publication of *World War I: The Definitive Visual Guide*, a vividly illustrated, in-depth account of the Great War. Written by historian R. G. Grant, and created by DK's award-winning editorial and design team, *World War I* charts the developments of the war from a global perspective. Using illustrated timelines, detailed maps, and personal accounts, readers will see the oft-studied war in a new light. Key episodes are set clearly in the wider context of the conflict, in-depth profiles look at the key generals and political leaders, and full-color photo galleries showcase the weapons, inventions, and new technologies that altered the course of history. A vivid portrait of the confrontation on land, sea, and sky, *World War I: The Definitive Visual Guide* offers readers a bold and thoughtful new look at this complex and explosive moment in history.

[View larger](#) **World War I: The Definitive Visual History** *World War I: The Definitive Visual History* is a brilliant and fascinating portrait of a world at war. Sumptuously illustrated, this definitive account recounts in striking detail the course of the First World War. Engaging narrative recreates the experience of titanic battles such as Gallipoli, the Somme, and Verdun that left an indelible mark on the collective memory of countries that lost a generation of young men. Packed with thematic spreads, timelines, profiles of key generals and political leaders, inventions, discoveries, maps, photography, and key artifacts, this book is the ultimate guide to World War I from every

perspective.

Eyewitness: Verdun, February 21, 1916 The German army began its offensive at Verdun with a nine-hour-long artillery bombardment. The fighting continued for a further 10 months at a terrible cost—almost 650,000 French and German soldiers were killed. [View larger](#)

Stalemate 1915: The Sinking of the Lusitania In February 1915, Germany launched a campaign of submarine attacks against Allied shipping off the British coastline. This led to the notorious sinking of the transatlantic liner Lusitania and set the Germans on course for a confrontation with the United States. [View larger](#)

The Battle of the Marne The French and British counteroffensive launched on September 5-6, 1914, was one of the decisive battles in world history. By forcing the German armies in France onto the defensive, it ended Germany's hopes of a quick victory and set the course for a drawn-out conflict. [View larger](#)

Canadians in the War "Whenever the Germans found the Canadian Corps coming into the line, they prepared for the worst." - British Prime Minister David Lloyd George, "War Memoirs" [View larger](#)

This volume presents a unique and concise approach to examining the key moments of the Great War, from just prior to the declaration of war through its aftermath. Readers will find brief coverage of events, biographies of key people, eyewitness accounts from soldiers and civilians, discussions of weapons technology, and a plethora of stunning visual images. The work is laid out in seven chapters, beginning with "The Troubled Continent 1870-1914" and ending with "Aftermath 1919-1923." Each chapter opens with an introduction and an extensive time line that details each month of the war. Various topics are covered in two-page spreads, full of the visuals that DK is known for: an almost overwhelming number of maps with intricate battle details; vivid photographs of people, places, and items of the era; and other graphics. A concluding section, "In Memoriam," provides information on key battle sites, museums, memorials, and cemeteries by country. As 2014 is the 100-year anniversary of the start of the war, the topic is sure to be popular, and this book belongs in most high-school and public libraries. --Carol Sue Harless

"Capturing the full experience of WWI is a formidable task, but this new, comprehensive account by historian Grant comes close. He presents information in an accessible manner and makes it easy to peruse a rich array of articles, detailed maps, and images. The selection of images builds a remarkable portrait of the war. This is a broad, moving, informative account of the war that's perfect for both the young, budding historian and the well-versed WWI reader." â “ Publishers Weekly "A visual wonder of important historical events, as promised in the title." â “ Library Journal "This volume presents a unique and concise approach to examining the key moments of the Great War, from just prior to the declaration of war through its aftermath." â “ Booklist

My husband and I fell in love with DK (especially the Smithsonian line) during a trip to the Smithsonian museums. The books are filled with an immense amount of information which is presented in a fascinating, readable way. Of course the author couldn't include absolutely every single detail about the subject at hand, but they still did a wonderful job. The photos are gorgeous and a perfect complement to the information being presented. The books themselves have sturdy binding and stout construction.

One of the best and more complete books I have. And it is a beautiful and impressive volume. Just bought it to "commemorate", as you will, 100 years of the start of this turning point in the history of mankind. The pictures and charts are amazing denoting a caring and profound research into war archives all over many countries and lands. Thanks for editing such a great item of historical masterpiece.

Perfect price, quality and addition!

great educational book

What a wonderful book. My son who is a freshman covered this subject this year in school and was really into the information. This book covers everything he learned about and the visuals are outstanding and in color. I can't wait to give this to him. I don't know why but he found WWI more interesting than WWII.

Just what I was looking for.

Bought this book for my husband and he absolutely loved it. It was also way bigger than we expected.

This book has made it easier to learn about World War one, which is something that's pretty hard to do when so many things are about World War two.
