Millionaire Within: Untold Stories From The Internet Underworld

Synopsis

Millionaire Within pulls back the curtain, giving you a front-row view of online entrepreneur E. Brian Rose's journey to becoming a self-made millionaire. Rose details the simple steps he took to make a fortune on the Internet. These tales of failure and success will motivate you to jump in and start your own journey. "Millionaire Within is a book every entrepreneur needs to read. E. Brian Rose does a fantastic job taking you through the 'real' world of business building. And of course all roads lead to the Internet. You either understand online marketing or you are walking dead, but just don't know it yet." -Wayne Allyn Root Bestselling author of "The Power of RELENTLESS" & Former Vice Presidential nominee "Engaging... Intriguing... E. Brian Rose is masterful at mixing stories with teaching concepts. This book reads like a Hollywood movie!" -James Malinchak Featured on ABC's Hit TV Show, "Secret Millionaire" Author of the Top-Selling Book, Millionaire Success Secrets Founder, BigMoneySpeaker.com

Customer Reviews

I actually purchased this book with a mixture of curiosity and push from other friends that gave it a

great social review, and I was not disappointed. It was indeed a great read and extremely entertaining. The high and lows, insights and behind the scenes backdrop from someone I've known about and followed, but never really knew the back story. I often have a few books going at once, but this was so good and fun to read, that it was hard to put down and I finished it quickly. The best part is that it's a real story of success, with all the ups and downs, as some great 'a-ha moments' in there as well. Bravo!

It's always funny how many people are often envious of the results successful people get in life saying things like "they were lucky or better educated" or "they were connected to the right people or in the right place at the right time". They completely ignore the extremely long, emotional and sometimes financially crippling roller coaster of ride most successful entrepreneurs take to finally "crack the code". This book illustrates this perfectly. In his book *Millionaire Within* E Brian Rose shares his many up and downs on the journey becoming a self-made millionaire. Sharing these moments via a short story format - it's an enjoyable & easy read. There are many lessons almost any entrepreneur can learn - any many that some may already relate to. His tales of failure and eventual success will hopefully inspire some of you to jump in and start your own journey & for all that have already taken the leap to stay the course & ride the inevitable storms that the entrepreneurship journey will deliver. Go forth and prosper.....

Don't expect a text book accounting of how to do marketing. This is the author's personal story of his years in Internet marketing. It reads like a novel rather than a business book. Sure there is plenty to be learned in this book, but it is a really fun read. EBR says this is the world's best marketing book (I thought mine was!). Making that claim of course is one of the lessons in the book - like calling yourself what you want to be called. There are lots of good pieces of information throughout the book as you go on the journey with Brian from his time in the military to the start of JVZoo - it's all the stories in-between that really make this book fascinating. Having been involved in Internet marketing myself for as long as EBR has, I found some of the stories similar to my experiences and other - well, let's just say that the author has crossed paths with some colorful individuals. Pick up a copy of this book and read it. You'll be glad you did.

Wow, this was a page turner! I finished the whole thing in a day. Couldn't put it down. I've followed EBR's rise for the last few years. I recognize some of the events, but this book reveals so much more of the story. It's like they say on that show *The Real World* on MTV... "you think you know, but

you have no idea!"The story is so intriguing and any entrepreneur will be able to relate to the struggles EBR faced over and over again, although some of them were quite extreme.It's far from an ordinary entrepreneur's story. Brian has been there and done that through some seriously crazy situations most people couldn't even imagine.Things weren't all roses, and he doesn't hide that.He failed miserably plenty of times, and he got screwed over plenty of times. In his typical, ballsy, pissing-in-the-wind fashion, EBR has no problem naming names of the characters who wronged him along the way.After reading his book, I have a newfound respect for EBR, and I feel inspired to push further and harder in my business.If you're an aspiring entrepreneur, this book will give you amazing insights and motivate you toward success.If you're a successful entrepreneur, it will invigorate you. Not to mention, you'll pick up a few ingenious tactics to ramp up your business. My mind is reeling with ideas now.Finally, if you just love a good story, with tension, intrigue, danger, back-stabbing, and a myriad of twists and turns with a satisfying ending, you'll love this. I know I did.

Had some very interesting stories and learned so much about how EBR got started in the industry. Stories from when he was deployed overseas while in the Military all the way to creation of the very popular JVZOO.com It was a quick read and stories were very interesting. Life is about making choices and EBR shares that his life could of taken on a whole different direction. These stories got me to think about myself and truly inspired me.

What can I say that hasn't been said already. This book is a bunch of short bursts in EBR's life from his military service to his current life. If anything it makes me envious of his life. He has built an empire only to have it come crashing down on him not once or twice but many many times. And like the Chinese proverb says " Fall down 7, Get up 8" and that's exactly what EBR has continued to do.There are so many hidden gems in this book that you need to read it multiple times to catch everything, And personally get the printed version of the book not the kindle version only because you will be highlighting a ton of info. This book is like a bottle of shampoo, read, lather in your brain rinse. Then wash, lather in your brain again really let it set in and swirl around and then rinse. But keep it handy because you'll find yourself going back to it time and time again. Gold I tell you, Gold and more Gold in them thar pages!Ok now stop reading reviews and buy the damn book already, stop wasting time, you will not regret it. Now GO.... Go On.. Go already!
