Listen and Learn is usually a good series with real-life conversations, vocabulary, grammar and so forth. For some reason, they decided not to update the Russian version, instead presenting a series of tourist phrases from the 1980s that are apparently meant to be memorized by the listener. As such it's useful as a last minute crash preparation for a visitor to Moscow but not much more. If they updated, and followed their usual procedure, I'd recommend it.

The CD edition is a well-designed survival course in Russian for travellers. One speaker says a phrase in English and a native Russian speaker says the phrase corresponding to this in Russian with a pause for repetition. It uses the standard one repetition format and provides an excellent choice of vocabulary and phrases, many of which you don't get in other such courses. What I found disappointing, however, was that the quality of the recording was so poor that it was very difficult to pick out what the speakers were saying. I found it was like listening to an old-fashioned short wave broadcast with lots of distortion. The distortion is bad enough to make the CD's unusable for picking up pronunciation details. It's too bad --- it would have been a useful product otherwise.

Very dated. No one in Russia has used the term "Comrade" since 1980-something. In the section about calling the police, they use the term militia and militia man. Very dated terms that are no longer used.

Purchased as a gift for my sister and she still uses it for reference often.

Very basic. I don't recommend.

this order was a ripoff, no manual was provided with the discs which means it won't be effective and the discs will not be useful

I was very disappointed in this CD. It is so hard to understand the translator's voice. He pronounces his Russian in a very difficult manner.

To start with, this is not a course for beginners. The phrases are too long and too difficult. Second thing, which is much more important, nobody speaks Russian like that anymore. I'm a native Russian speaker and this is the Russian of the 50s. The course was created in 1956 or 1958 and reviewed in 1980s. The review didn't do much, if anything. Unless you study history of Russian as a linguist, I do not recommend this book.
