## **Customer Reviews**

Great for beginners and even those who are advanced.

This book with CD's is as good as advertised. I'd had Spanish in elementary school virtually DECADES ago and wanted a "refresher" and this book fits the bill very well. It arrived on time, with the CDs and was exactly what I'd expected.

I'm learning Spanish. This book presents a lot of information without being overly long about details. It has two audio CDs and written exercises that help you to learn. It's a good reference book too. I'm using the book with a class but it would be great for use alone. One warning though: there is so much material that it might not be good for people who know no Spanish at all.

Very good as a tool for conversation classes.

Very well explained text with good exercises.

I am so glad that I bought this book with the two audio cds. It is really useful for improving my understanding and listening abilities. The conversations in the book are what Spanish people would normally make in real life. I think this type of books is the best method for mastering a foreign language.

An awesome book. It explains everything. I would recommend to buy this book. I am so excited.  
**AWESOME AWESOME AWESOME**

I haven't worked that far through this book yet but what I have done I have found both interesting and useful
