Niagara Falls: Guidebook To A Walking Tour Of The Falls

Synopsis

The Niagara Falls are a natural wonder created over 12,500 years ago by ice, rock and water. It is no surprise that the Falls are the most illustrated and painted site in all of North America. This illustrated walking guide captures the present and past views of the majestic Niagara Falls. Follow in the footsteps of adventurers, explorers, daredevils and tourists and compare their past experiences with the force, power, beauty and sublimity of the American Falls and the Canadian Horseshoe Falls to yours. Did you know that the first illustrated view of Niagara Falls showed a third waterfall? Did Table Rock really collapse? Who is the Amazing Blondin? Do goats actually live on Goat Island? This epub version of the Niagara Falls Guidebook contains 30 Waypoints and over 30 illustrations chronicling the figures, developments, and history as it guides you through the beautiful nature of both the American and Canadian Falls and its surroundings.

Book Information

File Size: 93883 KB

Print Length: 70 pages

Publisher: Linke Mik Communications (August 4, 2015)

Publication Date: August 4, 2015

Sold by: Digital Services LLC

Language: English

ASIN: B013HAIOQG

Customer Reviews

This is super short. I read it on my kindle before going to Niagra. It sort of helped imagine what I was about to look at, but I suppose that's hard to do anywhere. I would have liked better, in color

pictures.
