I love these types of maps. Before GPS they were the only thing we had besides a folding map which was small. Still, I don't use GPS so this is very handy to bring in the car or as I usually do, look over my route first in this kind of book. I think it's invaluable.

It is a comprehensive street guide but is not user friendly. All the streets are there, but each page consists of a small territory. Intermittent pages showing a larger territory, showing the major routes and less details, would have helped enormously and completed the guide.
