When Monster Comes Out Of The Closet

Synopsis

Lori Steinhorst, through the very words of a serial killer himself, manages to do what no one else has been able to do to date. She uncloaks the monster in the closet by revealing his inner thoughts and actions, and we see what we have always feared: The monster is no monster at all, but rather a human being, who looks like any other. Yet, he is torn and twisted by irresistible, compelling, and uncontrollable desire to molest and kill children. Through his desire to prevent others from being like himself and to prevent children from falling victim to those who would prey on them, convicted molester/killer Westley Allan Dodd, tells it all. But most importantly, he tells you how there are no monsters in our closets - the are on our streets, in our children's playgrounds, schools, and come knocking at our front doors!

Customer Reviews

It feels rather wrong giving this book 5 stars in regards of how much I 'liked' this book. I didn't like this book at all and I'm sure that the only people who could genuinely 'like' this book are very disturbed people. However, for what this book is and what it is meant to do, it cannot be topped and

that is why you rarely see copies up for sale. I have seen this book sell for over \$1,000 before and if you are lucky/unlucky enough to snag a copy it will show you an incredibly dark world that will haunt you for the rest of your life. This book is everything that you've heard and more. It's twisted, brutally honest, raw, and sickening. Westley does not hold back and if you are looking to dive into the minds of twisted individuals like Westley, this book will definitely give you more insight than you could ever imagine. However, it will not be something that you will soon forget. It's probably a good thing that this book is not widely available. It's not a book that just anyone should be allowed to read.

At times a hard-to-find book that's price fluctuates to \$1000 and more at times. This is the softcover book titled, "When the Monster Comes Out of the Closet: Wesley Allen Dodd in His Own Words" by Lori Steinhorst and John Rose. This is not mass market paperback type stuff, as it's filled with Dodd talking about his career as a pedophile, how rarely he got caught at it for as much as he was doing. It's just difficult to stomach at times, yet insightful for people especially any with small children. A rare view of a twisted person who caused a lot of damage in his wake until he was finally caught.

A look into the mind of a pedophile. Scary to read how easily they find ways to access our children. An educational read for all parents.

The book although stated to be written by Lori Steinhorst and John Rose, is almost entirely written by serial killer Westley Allan Dodd, who tells stories about the countless children he's molested over the years, giving an inside view of the life of a child predator. The book should serve as a warning to parents and all those who read it to keep an eye out for monsters like Dodd. Throughout the book he even explains how he played the system and was caught maybe once every 30 children he had molested, making him feel invincible. Dodd never believed he'd be caught or even punished very harshly. He also goes into detail about how he planned to start eating victims, mainly their genitals. And at times he shows no remorse for his crimes, stating that he's only pretending to have remorse. Other times he demands to be put to death, and claims he can't live with what he's done. The book also features an interview with a woman who wrote to Dodd in prison and fell in love with him. It also features a lengthy letter written by her with commentary on it written by Dodd, stating how delusional she is.

In depth study of the depravity of pedophilia.

This book is perhaps the most frightening and yet enlightening thing I have experienced in reading a true crime account that I can remember. The author, in an attempt to help parents gain clear insight into the mind and methods of a child predator, uses the predator himself to tell you what he has in mind for children, literally documenting his life of seeking out, molesting, and even killing children. I was surprised that it wasn't a story form, there are no embellishments to make it frighten the reader, it did not need any, just to know what was on Westley Dodd's mind will scare you to death! The author comments from time to time, just enough to make you think about what you are about to encounter, never enough to distract you. It is chilling and thought provoking. I will never again leave my children unattended for a second after reading this book, even though has Dodd been executed, I now know that there are many more just like him lurking out there. If that is all the author intended, it is enough for me. I recommend any parent, grandparent, aunt, uncle, etc...that love the children in their family to read this book and pass it on. I feel empowered by this book, it has changed my perspective and isn't that the purpose in reading?

A friend of mine gave me a copy of this book. The effectiveness of this book is not marred by age. My God, I felt like I was there and my heart ached for those children. No matter how many times we hear about this on the news, it is never as effective as hearing it from the horses mouth. Wow!

This is an excellent book!!!!It really allows you to get into the mind of a pedophile. And see how they think. It almost allows you to pick out the pedophiles that you unknowingly come in contact with, just by observing behaviors that were picked up from reading this book.
