Customer Reviews

I had the great fortune to attend a Peak Potentials seminar where Adam Markel was Lead Trainer. I

was greatly impressed with how he conducted the seminar, and how he conducted himself. We were all thrilled when at the end of the seminar Mr. Markel got the call informing him that he had received a well deserved promotion. I attended another peak Potential seminar this past year, with my sister. We were ecstatic to learn once we got that that Mr. Markel was the Lead Trainer there too! I have never met Mr. Walsh, but from what I have read about him, I hold him in high regard. In this book they present their own experiences, as well as those of 34 other entrepreneurs, speakers, and visionaries, from all walks of life. What they have in common is that they all took charge of their life, and they were/are all successful. Here you will see how to dream big, to follow your passion, and to take life one step at a time. You will see how to take control of your own time, how changing your habits can heal you, how to move past the obstacles in your life, and so much more. The bottom line ... you have a personal destiny, and you are in charge of it!

When Napoleon Hill published his masterwork "The Law of Success" in 1928 it became the foundation of a cottage industry for "self-help advocates" which has since grown into a major force of modern society. This new book by two well-respected motivational speaker/coaches has taken the core principles Hill first articulated almost a century ago and is re-framing them in ways that will appeal to the new generations growing up in the 21st Century. The answer to leveling the societal playing field which separates the "haves" from the "have-nots" includes many areas of public concern. However, we must never lose sight of the fact that "personal responsibility and initiative" are among the most important. This book does a fine job of teaching its readers how to leverage personal knowledge and motivation to more easily obtain our life goals. How can anyone criticize and not respect a book which holds the potential to help improve the quality of life for many of its readers?

I loved reading the reinvention stories in The Spirit Of Success. Hearing from real people on how they achieved massive success in business and in life gives hope to all that taking action and being passionate can bring about the change you want to create in your life.
