## Customer Reviews

its not as good and interesting as i expected.it is tnot comprehensive,not enough material, its too short.i think it lacks enough information although whatever it has is correct and the latest.I have recently read it again, i may add that it is useful for candidate appearing in board clinics,the information is practical and clinical. I appreciate the effort and i encourage for increase in its contents. I expect for its new edition that should be twice this edition in size at least

May be for first year residency, no more
