## Customer Reviews

Biology (California Edition)

Excellent textbook. It's used in Honor Biology class for grade 9.

Satisfied a high school library book replacement! They kept trying trying to enforce us getting a "new" book, but as mentioned the book wouldn't have been the same brand "new" after the student used it for a school yr. Ordered this book, turned it in with no problem. Got it at used rate & was sufficient condition to satisfy their "new" book requirement. The book was clean & clear and arrived in timely fashion as promised. Good deal.

it was ok

Easy to Understand

Fast Nice And Exactly As Portayed

almost new and very nice

It came sooner than expected that was great thanks a lot

I assumed by the description that it would be in better quality
