Tim MacWelch is a survival expert and the New York Times bestselling author of *Prepare for Anything*, *Hunting and Gathering*, *How to Survive Anything*, and *Winter Survival Handbook*.

very few real tips that are unique most is common sense like make a shelter, what frostbite is there are lots better choices that cost a little more. seal and air force survival guides. the boy scout handbook is a much better choice.

Entertaining read, not overly full of info but. Bits and pieces to keep you thinking. Overall I was entertained and reminded that being prepared is necessary to survive.

Builds confidence that you can survive anything from ordinary run of the mill catastrophes to appocolyptic catastrophes. A fun read as well.

This book has great survival skill techniques and real life stories. What I'm picking up on mostly is you must use your own good judgement and fight or flight skills to survive the unspeakable of attacks. And -- Always Be Prepared - for the worst case scenario coming your way! Life comes at us fast sometimes and we need to be able to "think on our feet" at a moments notice. Barb L.

Very cool book, has lots of tips on how to survive anything..

I bought this for my son for his 15th birthday. He's a Boy Scout and loves all things out doors and camping related, so this was perfect. It actually had lots of useful information, and he found it fun to read. He read it in 2 days, which is a good sign of how much he liked it. It was definitely a great gift idea and He and I would both recommend it for the adventure seeking outdoorsman/woman in your life.

Amusing and informative accounts on survival situations from the mundane (power out) to the incredible (hunted alive, etc.) Practical details plus True/False myths. One minor nitpick: his "quad chart" tables showing seriousness versus possibility are backward. Worse always goes right and up.

Funny, creative and helpful
