Customer Reviews

This ebook was surprisingly well done. I do love sci-fi and erotic so when I found this book I thought why not. I'd never of thought an author could pull it off but Charlie Buxton did. This is a science fiction story that captures the reader it includes the sexual content which makes this a rare find indeed.

This is a delightful melange of science fiction, romance, and mystery. There are so many plot points that it is virtually impossible to pick out any special place without creating a spoiler. I am looking forward to reading the rest of the series, I highly recommend it to everybody who likes any of the genres. Hoping I can get the other ones soon.

some of the science fiction is mainstream, the stories were entertaining, but very 2 dimensional, Betrayal was very human, not everyones "cup of tea"

Wonderful. I like the style of Charlie Buxton. This book has a wonderful flow. This book consists of a wonderful science fiction story that grips the reader's mind in to it and the sexual content included provides a great deal of taste in to it. I highly enjoyed this. The author makes the reader feel it. Enjoyed well!

The first story starts out with an explicit sexual scene. To me, it read like a list of female genital parts, linked together by words to form sentences. I'm surprised that there wasn't a picture, with arrows. I had to laugh. It read like something a 16 year old boy would write, under the blankets with a flashlight. The next paragraph went right into monotonous, boring space science mumbo jumbo that made no sense to me. And I'm into the metaphysical, paranormal, etc. That was as far as I got. I want this off my computer. NOW! Can I get my money back? I only read two pages. It's all I could stand. Just because a person CAN write. doesn't mean they should. Don't quit your day job Charlie Buxton. Finish high school and get a real job. :P Don't waste your money!!!

"Sci-Fi & Fantasy Erotica: Volume 1" by Charlie Buxton (2015) had the potential to be a great read. The five stories themselves ranged from very erotic to not erotic at all, interesting to dull. Unfortunately, the book wasn't well edited so it contains numerous punctuation and grammatical errors. Not recommended. Kelvin L. Reed Author of "Once a Month"

I tried this book since I got it for free through Kindle Unlimited. I was hesitant because there wasn't a single indication of what the story was about, and honestly, I still can't give you a clue! I disliked this book so much I wasn't even able to finish the first part. There are 5 parts to this book and it seems they are all different stories but just skimming through the book, I constantly came across content that was just plain depressing... Destruction of humankind... Isolation... Brutal attacks. How this book could be categorized at erotica is beyond me. If you are looking for romantic erotica... You will be disappointed with this book. If you want bizarre, disjointed and depressing... than....
