Customer Reviews

Not what I expected

This looks like the review of season 1. Not enough. Is just a brief description oh Harvey Specter and company and a fee quotes.

Is it possible to give ZERO stars? The best thing about this book is the ideal of this book-a handbook to turn mere mortals like you and me into Harvey Specter from the USA Network show SUITS. At least it's a cool idea. The second best thing about this book is its cover. There is nothing else positive about this book beyond its concept and its cover. I didn't really expect a life-changing volume but for \$8.00 I did expect something more that a book probably written in under three hours and totally devoid of any wit or creativity or useful advice. I suggest that you do not purchase this book. Somebody wants to cash in on the popularity of SUITS--and that's fine with me-- but this worthless book does a great miservice to a great TV show.

If I could give this less than one star I would. It's straight up false advertising to even call this a book - it's barely a pamphlet. It basically details what Harvey Specter is - a successful attorney, who

dresses well - blah, blah, blah - but gives you literally no advice. And worse, it reads like a 6th grade book report. Yes, 6th grade - not even high school level. It was a cheap purchase, but I returned it anyway because I couldn't pay even \$7.00 for this piece of trash. My husband had been so excited to get this, and it was a huge letdown.

I know that if you see first the movie based on the novel can turn out to be disappointed... and this case wasn't the exception. I had greater expectations for this book.... even if I was reviewing what the series show... but even the writing isn't good enough to pay respect on a character that I most admire. So you can consider that his book not only is just a small and incomplete resume about the series show, and a short and incomplete resume of the facts.

Not very long, only 20 pages!

I'm a huge Harvey Specter fan, and I feel this E-Book lacks content leaving you wanting more and it doesn't satisfy that. There definitely needs to be more content under clothing ect...

Awful. Don't waste your money. Don't a book but a pamphlet.
