Customer Reviews

Most doughnut cookbooks consist mostly of fried doughnut recipes, with only a few baked ones

thrown in. I had recently purchased a doughnut pan, and was looking for more recipes to use it with. I did a lot of searching online, and I believe this is one of only two books that are 100% baked doughnuts. The only other one I found was "Baked Doughnuts For Everyone: From Sweet to Savory to Everything in Between, 101 Delicious Recipes, All Gluten-Free". The gluten free diet does not appeal to me, nor is it medically necessary for us, so I passed that one by and kept looking, and found this one. I have tried several of the recipes in it, and they turned out wonderfully. It's pretty hard to tell that they were baked and not fried. Buy this book and a doughnut pan, and you'll be all set!

A bought a donut pan and was looking for a easier homemade version to baked donuts and found this great book. There is so many variations to choose from! Easy to read and follow. Would recommend this to any cake donut lover.

Received on time and in tact. Will be using it for July 2nd family reunion. New desert idea. I am sure it will help to make that mini donut desert a big hit.

It's ok... not my first choice of a donut recipe book. Not a single color photo and printed on paper from the 70s. If you're looking for just recipes this is a book -- plain vanilla and nothing fancy... but plenty of recipes.

as a type 2 diabetic I was desperate for some low sugar doughnut recipes and there are a few in this book. the baked doughnuts are very good and the directions are clear so you can go from out of doughnuts to a weeks worth in half an hour

I purchased baked donut pans in small and large and this cookbook. When I made a couple of recipes, I realized these are muffin recipes baked in donut shapes! They will never taste like a fried donut. So, as much as I like muffins, I'll just make them in muffin cups. I don't know that I'll be making many baked donuts.

From light and healthy to gluten free and of course sticky and sweet. Great first book to enjoy with those new baked donut pans

I rate it a 3 star because I was looking for some healthy (i know healthy and donuts don't go

together), ok so some relatively healthy donuts. I only found a few. I have found better "healthier" donut recipes online. It is a great book for what it is though.
