Lacked pizzaz. Authors opinion was noted frequently and took a little away from the excitement and adventure or the thrill of the chase

I chose this rating because my experience was excellent. I have like everything about this product since it came as described and came quickly. I would recommend this product to everyone.

Good guide to separate true facts from campfire tails: Each of the 81 accounts of treasure is rated for its' Value, Supposed Location, and Story Authentication. The author will tell you in no certain terms if is a factual lost treasure, or a yarn!
