Amazing read, changes your outlook on life!

Great book, I'm going slow, but it has struck my interest ... hope I can loose a few pounds, while having fun! Bought one for my daughter too! She's getting into it!

Too involved and lots of instructions, groceries, etc.

Real common sense. No "religious" mumbo jumbo. I did find what I needed and I am applying it. It works.

This book has is a great perspective and not overwhelming way to get right FOR YOURSELF,

I have been into doing Insanity and T25 and it comes with the meal plans. It didn't work out as much as I would have liked - the meal plans felt like torture! What this book adds is the food side of things and our eating habits. I particularly liked the fun facts about exercise. Also, helps a lot to know your favourite stars have been trained by Dalton Wong! Good enough for J Law and Kit Harrington, good enough for me!

I started reading already, but didn't finished yet. It an interesting book.

Oh my! I usually just skim books but I find myself reading every page. It has helped dealing with my stress and why I eat more when I'm bored. Great book!
