The Hiccupotamus

Synopsis

There was a hippopotamus who hiccupped quite-a-lotamus. And every time he got a hiccup... he'd fall upon his bottomus! • Calamity ensues when an elephant, a centipede, and a rhinoceros try finding a cure for Hippo's colossal case of hiccups. Author-illustrator Aaron Zenz's creativity shines through in his colored-pencil artwork in this off-the-wall read-aloud. HIC! HIC! HIC!

Customer Reviews

Cute illustrations and characters . . . Kids will probably enjoy hearing it read again and again (repeating the verses themselves as well).

My son loves this book. Very bright colors and is all about a hippopotamus and his friends trying to help him get rid of the hiccups. Silly book that makes my 3 year old laugh.

Great book for my granddaughter. I bought this for her 1st birthday in a few weeks. I know she will love it. The pictures are so colorful.

My daughter is two and loves this book. She cracks up every time we read the book

Beautifully illustrated, however, I did not care for the made up words. I felt like I was teaching my 2year it was ok to mispronounce words.... It wasn't the funniest or most clever book.

The CUTEST and my personal favorite book to read my 16month old. It's so fun and she thinks it's hilarious. It is paper so I have to keep this one out up so my daughter doesn't rip the pages out, but that's no issue and wel worth it!

Very cute book with bright and fun illustrations. We donated this book to our local library and it was a hit!

My grandson is 7 and just a beginner reader, but he read this to his 4 year old brother and they cracked up!
