Old style map. I like using them.

easy to read

OK Map. One half of the state on one side, half on the other. Not suitable for hanging on a wall - which is what I wanted to do with it. The problem with sometimes is the descriptions. No where did it say it was two sided or not. And, of course, no pictures of it opened up.

This is a great map! Sometimes you need more information than GPS or map apps provide. I have always trusted Rand McNally and this map is certainly always very accurate, unlike some map apps. The map is made of paper and is very large when unfolded, but it's certainly worth the effort because of all the details provided!

Great

Wanted the whole state on one side ~ just moved to Illinois & need to learn my way around...

E-maps are great but when researching a trip I still prefer a road map. You get reasonable detail without the constant zooming in/out. It is also easier to show someone the intended route.

Needed a new road map, prefer the foldout paper kind to emaps. Love being able to spread them out on my lap on a road trip.
