After flipping through this book a few times (and loving it each time) I find that the projects have

stayed with me. When I was shopping at Costco last weekend I saw a stack of white towels and immediately thought "I could use these for that cute beach towel stamping project," and when I was at Ikea I wanted to buy all the terra cotta pots so I could stamp them for Christmas gifts. What I value even more than the quality of each of these projects is how approachable this book is. This can be your first time stenciling something and feel confident that you'll have a great end result. This book isn't about doing everything perfectly; it's about making beautiful things and enjoying yourself in the process. As Anna Joyce writes, "This book is meant to be joyous. It is about trying something new, embracing 'imperfections.' and most of all, taking the time to create by hand."

This book is so beautiful. I am especially excited about the wall stencils - so much cheaper and more original than wallpaper! At my daughter's recent birthday party, the kids played while the moms passed this book around, picked up from the coffee table. I ordered another one for my sister for her birthday.

This book is an inspiring piece of work. The genius of the artist is so amazing and fun to ponder. I wondered, could I do any of these things then thought: she gave me all the ways to try it out! Nicely prepared layout, pictures, drawings, directions. I recommend.

Wonderful book with so many unique projects!! Can't wait to get started...now to find the time :)

This is an awesome book. Easy to understand the methods, making doing projects fun and not frustrating! I am giving it to my 11 year old granddaughter for Christmas!

What a great book by Anna Joyce. So many ideas that are easy to implement. The book is a guide that inspires the reader to make their own unique art piece!

I love this book. The photoes are gorgeous, and the projects are inspiring.
