Nerdy To Sexy: How To Create A Sexy Dating Outfit In 10 Steps: Attract Women, Increase Your Confidence, And Get LAID!

Synopsis

Ever wondered how to become significantly MORE ATTRACTIVE AS A MAN? Of course, you did. We all did! Unfortunately most of the strategies that can help us become more attractive men are either slow (like improving your physique) or painful and expensive (surgeries and similar procedures.) But what if I said that becoming MUCH, MUCH MORE ATTRACTIVE, SEXY is as simple as changing the clothes you wear? Nerdy To Sexy teaches you exactly that – how to change your style so that you look sexy! This is not your typical men's fashion book and you won't find advice how to dress for a job interview or a business lunch. Here you won't learn what's appropriate to wear in a formal event or how to look professional. No! This book is dedicated solely to men, who want to dress to look more attractive, sexy when meeting women. Who want to enter the bar on notice women CHECKING THEM OUT. You will learn:

- How to tailor your style specifically for your unique needs: where you live, your personality, the type of women you prefer in your life.
- How to use clothes to make the most out of your physique: appearing leaner, more muscular even taller – all possible simply by changing what you wear!
- Learn everything you need to know about sexy fit, how to coordinate colors and patterns in an outfit to avoid looking boring and how to use layering for extra style points.
- How you can use Modeling to build sexy looking outfits without knowing anything about fashion.
- Even more so, in this book you will learn how to choose specific great looking clothes and how to avoid clothes that make you look like a dork, or, worse, like “that nice guy, who will always stay her platonic friend”.
- You will even learn how to use accessories to get approached by women in bars, without looking like a clown! But it's more than just about meeting women in bars, use the advice in this book to NAIL THE LOOK FOR YOUR ONLINE DATING PHOTOS! Everything you will read in Nerdy To Sexy was not learned in some fashion magazine, book on etiquette or design class – each point has been tested and re-tested in field, in the real world by myself and fellow sexy men around the world. What's stopping you from making simple changes in what you wear to stop looking like a nerd and becoming a sexy man? Customer Reviews

Best intro into men style, if your goal is to a create sexy and polarizing image. Most people are not born with fashion-model looks and characteristics, but as Darius implies, you are solely responsible to "make the most with the cards you have been dealt". The quickest and impactful method to improve your image, is your clothing and grooming. Darius lays it down with easy steps and versatile items that is tailored to your personal image, body type, and lifestyle. More importantly, he also mentions common mistakes on what not to wear, achieving proper fit, matching pieces, colors, etc. Hes one the rare style authors that doesn't promote boring repetitive "fashion advice" on lapels, fabrics, pocket squares, "average joe" business casual (think Dwight from The Office), khakis, and overpriced items that dampens your wallet, but overfills your wardrobe. Instead, focus on the fundamentals that make you a confident and attractive man.

Must read for those who want to elevate their style from a typical "nice guy" to a style showing more personality, edge and attitude. The advice is clear, concise, supported with examples and does not overwhelm the reader with a lot of unnecessary fashion details. Yet, if you follow the advice you are pretty sure to start dressing in a manner that will help you stand out from the crowd :) The book helped me in realizing what was lacking in my current (nice guy) style and how to improve it in the manner that suits my personality and goals. Be sure to follow the blog as well...

For the super cheap price it's definitely worth five stars. Loads of information packed in a few pages, it's very easy to read and it can actually transform the way you'll dress. The only downside is that if you are already experienced in men's style then you'll find a lot of things you already knew. That doesn't take away anything of course, since it's good to get another confirmation that what you already have/know is sexy

MUST BUY BOOK. Before I found out about this book and Darius blog (sexystyleforjoe.com) I was already dressing pretty well, but I was dressing like a stylish nice guy or gentleman or well adjusted (good for meeting her parents). When a girl looked at me before she'd think "hmmm he dresses well"...but now when girls look at me, they think "hmm he dresses sexy/masculine". Dont look like an average nice guy with no sex appeal. Look sexy!

Darius personally helped me with his style consultation which was amazing. It took me from knowing no fashion at all to feeling like I had an edge in my everyday life. While this book isn't a magical pill, it'll open your mind to how people perceive you and get you going on your goals. Would also strongly suggest his personal style consultation.

hey everyone! I have read a lot about style, but none of them have been as informative and at the same time so easy to understand/use. In this book you get everything you need to dress sexy and start making the way you dress one of your strong sides. Anyways it is a good read and you will definitely learn something.

Great book. Great fun, relaxed and with very usable advice. I gave one to my nerdy friend and he could not be happier - and has so much more luck with girls now..

It was an interesting book. It could use information if you happen to wear big and extra tall sizes.
