As a person who used to have a very weak voice with no depth and power, I used to feel so angry about the fact that I could not do anything to change it. I read and watched tons of books&videos that 'seemed' to contain information on how to develop a deeper voice. Well, none of them really worked. This book 100% guarantees that You will have a deeper voice no matter what!Only downside is the way the book is written.What you really have to know can easily be summarized into 5 pages,but as you might see that book is almost 100 pages in length.So. Conclusion:Buy the book. the exercises only take 10 minutes to finish. You only have to do the exercises upon awakening, so it's easy

Hearing your voice in your might seem that your voice is deeper, however the truth is that it not what you would expect. When you record your voice you will notice the difference. This is not just a book on the best way to get a more attractive voice. This book instructs you how to get more out of it.

Only five exercises at the end of the "book". There "Ho ho's and be he's". A carnival con. Just full of blather.

It works, it really does. This is the best book on the subject. Forget about the other ones. This one is

really well done and you can feel the author really knows the subject

I can hear the results after the first exercise. I just have to stick to them now to make sure it happens.

Though very short it is full of substance without the filler. I will continue this review once I am done with the exercises.

Easy drills to deepen and strengthening your voice.

Silly, lame and useless. The grammatical and syntax errors alone give the feel of an off-shore, out-sourced-eBook-for-profit speculation. The material is directed at wannabe pickup artists. Not for those wanting to strengthen their voices. Avoid. Alexander Valmont, really? Sounds made up, doesn't it? Like the 5th Musketeer? If we want to improve our vocal strength, we may have to spend a little more for education.
