It was the book required for class. Arrived on time.

100% outdated lol I have no idea why my professor picked this book. But it would have been relevant a few years ago. And does hel you realize how far corrections has come

It's your typical textbook. however, I will say that it is easy to read and understand and the little summaries at the end of the chapter are nice.

Required for my college course. Very informative book. Quick shipping.

Came just as expected.
