RECIPE:Â Sweet Potato Hummus Makes 4 cups Â Sweet potatoesâ ™ orange hue is the beautiful result of a wealth of betacarotene, which helps support eye health and immunity. Chickpeas provide a rich source of soluble fiber and B- vitamins for cardiovascular health. By serving this dip with crisp-tender vegetables such as red peppers and broccoli, you will also get vitamin C, selenium, and sulforaphane, an antioxidant shown to prevent certain types of cancers. Whole-wheat pita bread is another healthful, fiber-rich alternative to crackers. Â 1. Fill a large pot with 2 inches of water; set a steamer basket (or colander) inside pot, and bring water to a boil. Add potatoes; reduce heat to a simmer, cover, and cook until potatoes are tender, 10 to 12 minutes. 2. Transfer potatoes to a food processor. Add chickpeas, lemon juice, tahini, oil, cumin, and garlic. Puree until smooth, about 1 minute; thin with up to 2 tablespoons of water if necessary. Add 1/4 teaspoon salt and season with

pepper. Let cool; refrigerate for up to 1 week in an airtight container. Garnish with paprika before serving.  $\frac{1}{2}$  1 pound sweet potatoes (about 2), peeled and cut into 1- inch pieces 1 can (15 ounces) chickpeas, drained and rinsed  $\frac{1}{4}$  cup fresh lemon juice (from 1 to 2 lemons)  $\frac{1}{4}$  cup tahini (sesame seed paste) 2 tablespoons olive oil 2 teaspoons ground cumin 1 garlic clove, finely chopped Coarse salt and freshly ground pepper  $\frac{1}{2}$  teaspoon hot or smoked paprika, for garnish  $\frac{1}{4}$  per 1/4-cup serving: 106 calories; .6 g saturated fat; 3.4 g unsaturated fat; 0 mg cholesterol; 14.8 g carbohydrates; 2.9 g protein; 151 mg sodium; 2.7 g fiber

I love this cook book. The recipes are easy and delicious. Since these recipes are based on power foods you know that they are healthy for you. So far I have made : egg, kale & ricotta on toast. This recipe alone is worth the price of admission. The beet chips are tasty. Chickpea nibbles are a great snack. Egg salad with ricotta cheese and greek yogurt, yum. Quinoa and turkey patties are delish! The granola is wonderful. You will not be disappointed with this cookbook. Next on my list to make are the quinoa, apricot and nut cluster cookies. The picture looks divine. Every recipe has a picture, very important to me. Order this book if you want to take care of your health and enjoy your food at the same time.

I am trying to eat better and this definitely feels like a great book to start with. I like that the very beginning of the book explains each "power food", what perks it's packed with, how to store it, how to cook it and also which pages to find the recipes that include this "power food". The recipe's seem fairly easy and I can't wait to try them out!

i saw this cookbook at a friends place and asked "what the hell are powerfoods?" she invited me to flip through and i immediately felt compelled to purchase it for myself (because if i borrowed it, i'd never give it back!). as soon as it arrived i started planning a menu - and my family was impressed with the results! i cook frequently, and this book has reminded me that some of the most delicious recipes are the most basic. every recipe i have tried from this book has been successful. they were all delicious, satisfying and easy to follow. some of our favorites include the olive oil cake, various breakfast smoothies, salmon recipes and the trout with almonds and parsley is what my husband requested for his birthday. if you or anyone you know are trying to eat in a way that is healthy and diverse (re: lots of different ways of using the 38 ingredients) then this is an excellent pick.

I love that every recipe has a full page color photo. I love that each recipe has no more than 5 steps.

Nothing takes too long and every recipe is healthy without tasting like a diet food. Everything I bring to work for lunch turns heads and gets questions. The section in the front of the book has great information on ingredients, especially ways to store or keep them. I made it my mission to make a recipe from this book once a week. Nothing has been bad! I have given it as a gift to "new cooks" five times! Great food doesn't have to be difficult or exotic.

This is a beautiful book with a stunning photo for each recipe. (It is organized so that when opened a whole recipe and photo can be viewed without turning the page.) If you are beginning to learn about healthier foods or if they have been part of your lifestyle for awhile and you are looking for new ideas, this is a great book for you. There is a large variety of very do-able recipes. And for fun there is "Double dark chocolate and ginger biscotti" -- a unique recipe which alone may make the book worth having! (I've adjusted the egg amount to 2 whole eggs and instead of 1/2 cup sugar use an equivalent amount of a stevia/ raw sugar product.) If you are sensitive to print odors from similar books with many photographs be forewarned to air the book a bit before using.

I am so pleased with this cookbook and have already given two as gifts. I plan on ordering more for family and friends. I love how each power food is explained and the bonus section in back. Recipes I have tried so far have been delicious. This cookbook and SuperFoods at Every Meal have been my go to cookbooks since purchasing.

Great for non vegans and vegans!

I bought this book because I wanted to add to my healthy recipe bank. There are great ways to use fruits and veggies if you are lacking thereof, but I feel like there were not enough healthy alternatives to food items that are less favorable to a healthy diet (e.g butter, canola oil instead of olive oil)
