We are new to Nevada and new to birding. This guide is PERFECT! The pictures are clear. The guide is in sections according to type of bird. There are a lot of birds pictured but it's easy to find what you're looking for. We are interested in the birds visiting in our new yard but not really interested in an in depth birding hobby so this guide is exactly right. Thanks!

Boom!! just saw a bird and identified a bird with this handy pamphlet!! Its that easy, Flip it open to the category of bird and its likely you will see it there? Not to buyers reading the description: -Read the description. It says Format: Pamphlet Where are your expectations? silly. I do recommend to residents of Northern Nevada.

Had one for the last 5 years. Wore it out taking it out with me on field trips. Had to get a new one...

I bought this for my daughter-in-law and decided I need to get one for myself. It's so easy to use.

Useful tool to help identify the birds that visit our yard.

Love having this since I am new to Nevada. Folds easily and coated with a plastic cover.

I love these field guides, makes identifying common birds easier.

I like this because it is a pamphlet. Easy to look for specific birds.
